THE ROUNDUP READY PLUS® PROGRAM

The Roundup Ready PLUS program is designed to reward cotton growers who use herbicides sustainably and help slow or prevent development of glyphosate resistance in key weed species.

The program encourages growers to use a range of weed control practices through:

- Product recommendations
- Education & stewardship campaigns
- Financial rebates

HERBICIDE RESISTANCE TESTING PROGRAM

The free herbicide resistance testing program is available to all growers who have grown Roundup Ready Flex® cotton in any of the prior 3 seasons. Growers can test five of the major weeds present in cotton systems for resistance to program herbicides.

REBATES

For the 2020/21 season, cotton growers will be offered rebates for using participating products sprayed on Roundup Ready Flex cotton fields between 1 June 2020 and 30 April 2021.
